OFFICE ENVIRONMENT

EXHIBITION HALL FEATURES

The company has specially set up a display space, which is not only used to display various decorative material samples, but also designed to showcase product craftsmanship. A comprehensive exhibition hall that simulates the decoration effect. Visitors can not only intuitively feel the texture and color of the product, but also gain a deeper understanding of its advantages. The performance in practical application scenarios provides comprehensive reference for procurement decision-making. In addition, the exhibition hall regularly holds new product launches and industry exchanges. The activity aims to build a platform for information sharing and technological exchange in the industry.

DEVELOPMENT HISTORY

Since the establishment of the company in 2018, Zealit Custom Board has been steadily and steadily advancing, with key milestones as follows.

2018

In 2018, the company officially launched in Nanhai District, Foshan City. Covering an area of 8,000 square meters, the site is equipped with 10 production lines, laying a solid foundation for future development.

2020

After two years of development, the company's area has expanded from 5000 square meters to 20,000 square meters, successfully achieved moving and upgrading targets, entering one step by step optimization of production environment and resource allocation.

2021

Actively promoting production expansion plans, adding 10 additional production lines, significantly increasing production capacity to meet the ever-growing market requirement.

2022

Not only does online sales performance ride the test, breaking away from dust and successfully reaching the top of the industry line. Ranked as the leading enterprise in sales volume, still in Guangzhou, Shenzhen, Dongguan. We have established warehouses and are committed to product supply and distribution. Optimized and expanded the business in one step scope.

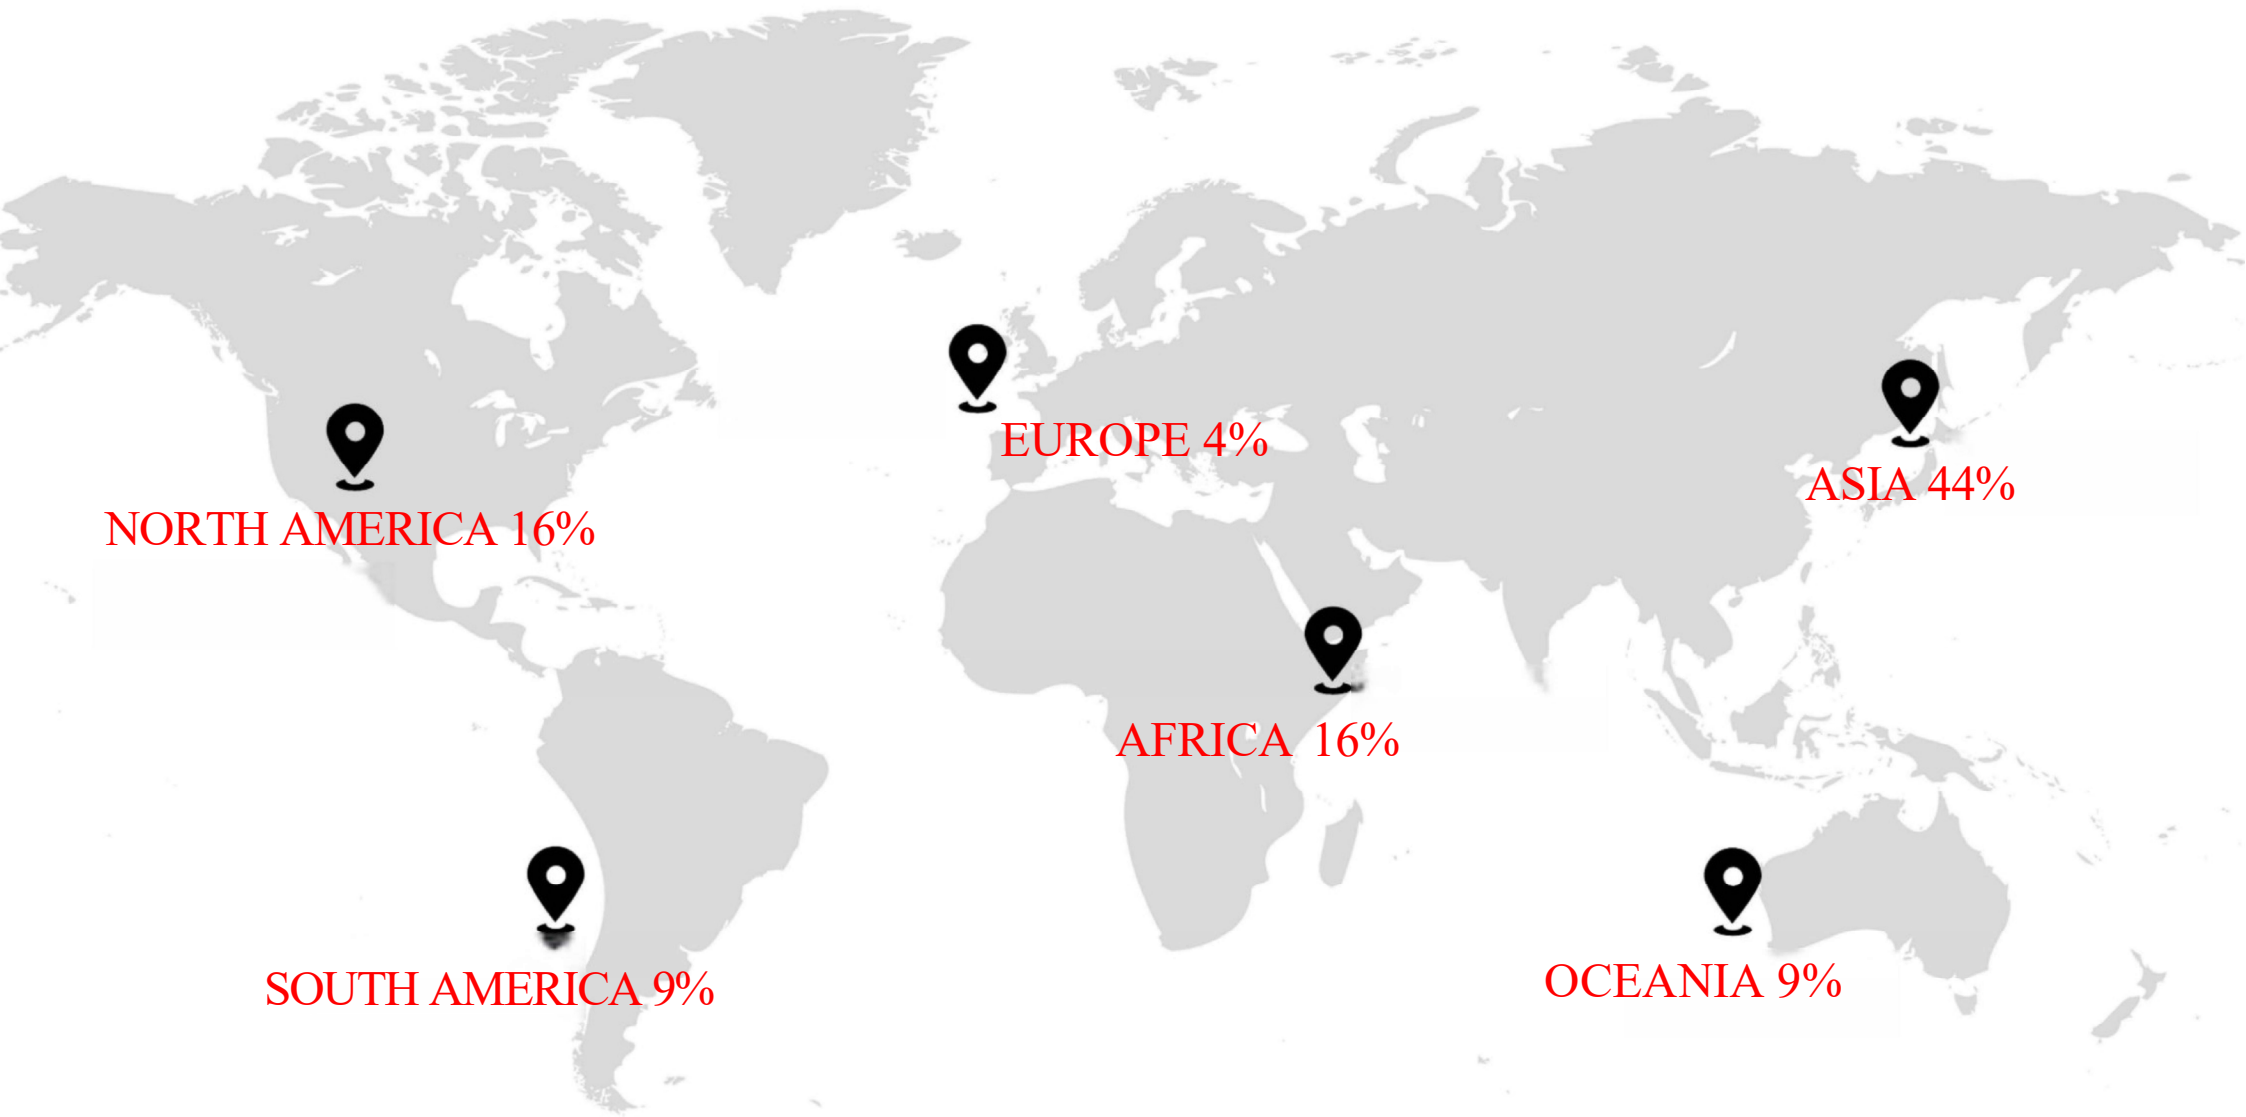

2024

Opening branches in Huizhou and Zhaoqing Factory, located in Huizhou and Zhaoqing. Adding flooring and PU factories on site. Realize regional expansion and market expansion. The double increase in share, target. Aspiring to enter a brand new era for the company development stage.

EXPORT COUNTRY

Exported overseas,spread all over the world,has been sold to over 20 countries or regions worldwide.

INTERIOR MATERIAL

— Bamboo wall panel

Material :PVC+MD
Length :2440/2600/2800/3000mm
(height can be determined)
Thickness :8mm
Width :1220mm
Performance:Fireproof,waterproof,environmentally friendly
Process High temperature extrusion forming
Board grade:E0 level
Fire rating :B1 level
apply :Indoor(wall,ceiling,background)

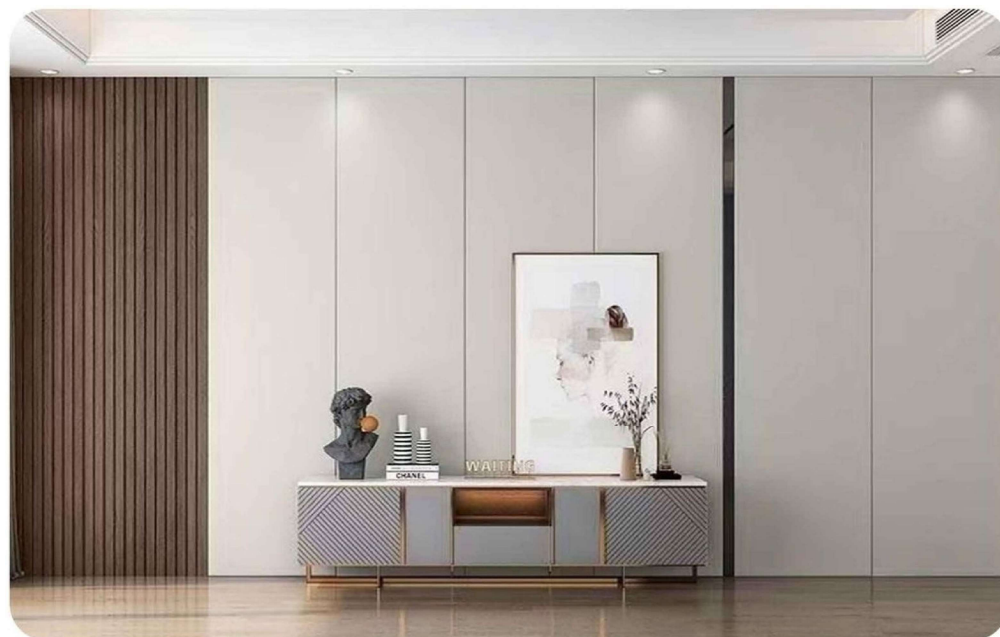

INTERIOR MATERIAL

— Bamboo and wood fiber wall panels

Material :PVC+MD
Length :3000mm (height adjustable)
Thickness :8mm、9mm
Width :400/600mm
Performance:Flame retardant,waterproof,environmentally friendly
Process :High temperature forming
Board grade:E0 level
Fire rating :B1 level
apply :Indoor(wall,background,ceiling)

INTERIOR MATERIAL

— Firewall

Material :Cement Firewall
Length :2440/2600/2800mm
Thickness :6mm/8mm
Width :1220mm
Performance: Waterproof,antibacterial,and environmentally friendly
Process :High temperature extrusion forming
Board grade:ENF level
Fire rating :A-level
apply :Indoor(wall,background)

INTERIOR MATERIAL

— Aluminum honeycomb panel

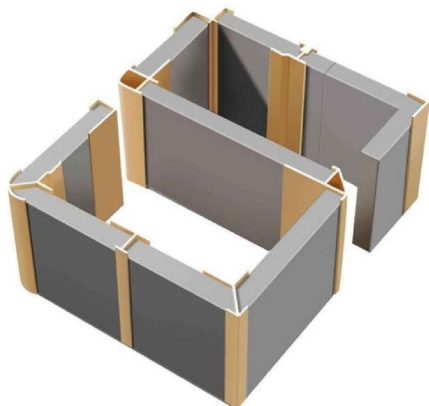

Material :aluminium
Length :2440/2600/2800/3000mm
Thickness :8mm 、 12mm
Width :1220mm
Performance:Flame retardant,waterproof, environmentally friendly
Process :High temperature forming
Board grade:E1 level
Fire rating :B1 level
apply :Indoor
(wall,background,ceiling,cabinets)

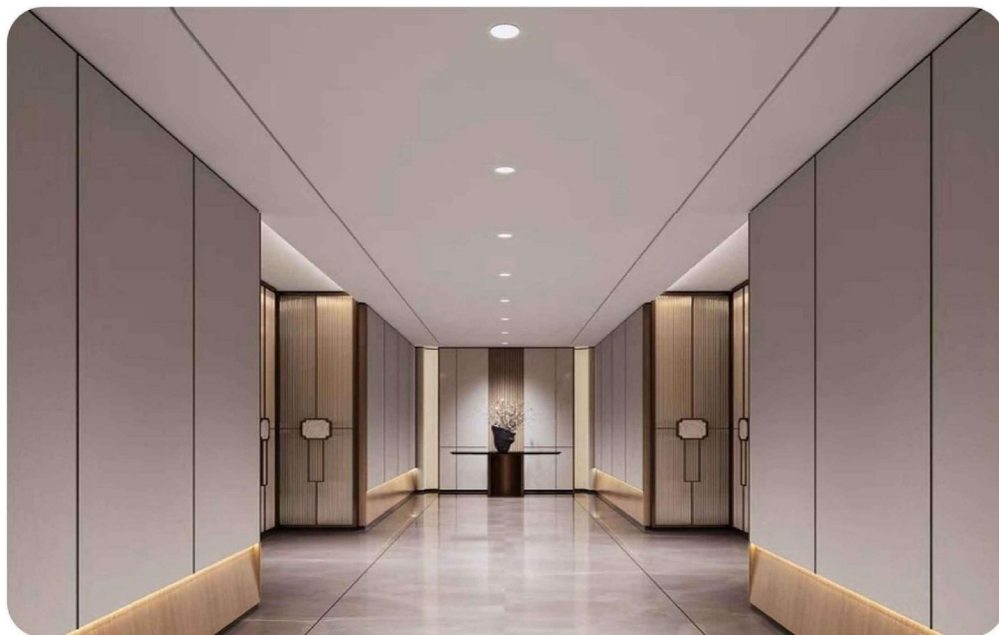

INTERIOR MATERIAL

— Decorative lines

Material :aluminium alloy
Length :3000mm
Thickness :0.5mm
Width :20.8mm/22.8mm
Performance:Anti corrosion,anti-corrosion,and environmental protection
Process :Tri acid oxidation
Board grade:ENF level
Fire rating :A-level
apply :Indoor wall panel decoration

INTERIOR MATERIAL

— Fluted panels

Material :PVC+MD
Length :3000mm
Thickness :2.2mm—29mm
Width :25mm—205mm
Performance:Environmentally friendly, waterproof and moisture-proof
Process :High temperature extrusion molding
Board grade:E0 level
Fire rating :B1 level
apply :Indoor (ceiling,wall,background)

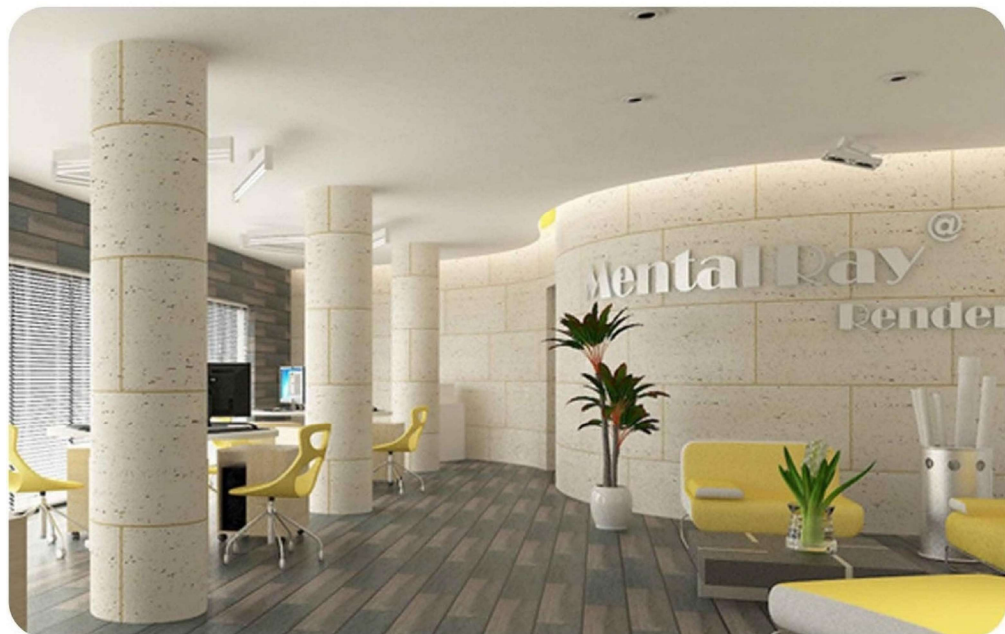

OUTDOOR MATERIAL

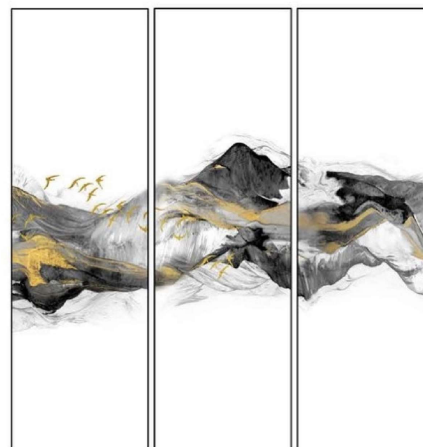

Flexible soft porcelain

Material :MCM
 Length :600mm 、 1200mm 、 3000mm
 Thickness :2—8mm
 Width : 300mm 、 600mm 、 1200mm
 Performance:Weather resistant,waterproof and moisture-proof,corrosion-resistant
 Process :High temperature pressing and shaping
 Board grade:E0 level
 Fire rating :A1 level
 apply :Indoor and outdoor
 (inner and outer walls,background)

INTERIOR MATERIAL

Artistic background

Material :PVC+MD
 Length :2440/2600/2800/3000mm
 (height can be determined)
 Thickness :8mm
 Width :1220mm
 Performance:Fire prevention,waterproofing, and environmental protection
 Process :High temperature extrusion forming
 Board grade:E0 level
 Fire rating :B1 level
 apply :Indoor(wall,ceiling,background)

INTERIOR MATERIAL

— SPC flooring

Material :PVC+natural stone powder
Length :1220mm
Thickness :3.7mm/4mm/4.5mm/6mm/9mm
Width :181/183mm
Performance:Anti corrosion and anti-corrosion measures
Process :High temperature extrusion forming
Board grade:EO level
Fire rating :B1 level
apply :Indoor (ground)

PRODUCT ADVANTAGES

Zealit Custom Board's products have won widespread market recognition for their excellent cost-effectiveness, comprehensive service guarantee, and strict quality control.

ACCURATE CONTROL OF PRODUCTION TIME

Efficient production process ensures fast order delivery. Response and strict adherence to delivery time.

COMPREHENSIVE SERVICE

Provide design consulting, customized production, and material services. Full service of streaming delivery to installation guidance and support.

EXHIBITION HALL EXPERIENCE

Welcome customers to visit the factory exhibition hall in person. Understand production processes and decoration effects, enhance purchase confidence.

ADEQUATE INVENTORY

Large inventory of finished products ready for stock. Just place an order. Fast delivery to meet urgent or large purchases. Purchase demand.

STRICT QUALITY MONITORING

Every process and every detail goes through strict quality inspection to ensure product quality. Always be consistent.

PERSONALIZED CUSTOMIZATION

Almost able to meet all color and style requirements. Creating unique space outfits for customers. Decoration scheme.

01

OFFLINE STORE EXPERIENCE

Having physical stores in multiple locations across the country. Convenient for customers to observe and experience on-site products. Offline store experience.

02

FREE DESIGN AND GUIDANCE

Provide professional design suggestions and safety measures. Installation guidance service, also available according to customer needs. Provide full package services for household needs.

03

MULTIPLE CERTIFICATES

Hold all necessary certifications to ensure the product complies with domestic and foreign regulatory requirements. Ensuring worry-free procurement for customers.

04

FOREIGN TRADE EXPORTS

Having rich export experience. Overseas customers provide convenience and efficiency. Trade services.

Foshan Zealit Tech Co., Ltd. relies on its excellent product quality and honest business behavior. We have won a series of awards from authoritative institutions for our high-quality service system and positive contributions to the development of the industry. The project and certification fully demonstrate the company's leading position and high recognition in the decorative materials industry.

TOP 10 BRANDS IN CHINA'S DECORATIVE MATERIALS INDUSTRY

This honor represents the company's standing out in fierce market competition, brand influence, and market share. Ranked among the top in the industry, the product quality, innovation ability, and customer satisfaction have been widely recognized in the industry.

GREEN AND ENVIRONMENTALLY FRIENDLY PREFERRED BRAND

This certification is a high affirmation of the environmental performance of the company's products, indicating that Suke decorative materials are superior. During the production process, strict environmental standards are followed, and the products have the characteristics of low pollution, low energy consumption, and easy recycling. Meets the requirements of green building and sustainable development.

IMPORTANT MEMBERS OF INDUSTRY ASSOCIATIONS

The company actively participates in various activities of industry associations and explores industry development trends with industry colleagues. Promote the formulation and updating of industry norms and standards, demonstrating a strong sense of social responsibility and industry leadership.

INDUSTRY AWARDS

– FUTURE OUTLOOK

In the future, Zealit will continue to devote itself to deepening its cultivation in the field of decorative materials and development. Our plan: continuous innovation: continuously launching more innovative products. Quality, meeting the constantly changing demands of the market. Expanding market share: Actively opening up. Expand domestic and international markets and establish cooperative relationships with more customers. Enhancing products. Brand influence: Building industry-leading brands through high-quality products and services. Strengthening R&D investment: improving product quality and performance to maintain competitive advantage. Shi. Optimizing production processes: improving production efficiency, reducing costs, and serving customers. Provide more cost-effective products.

Focus on environmental protection and sustainable development: Developing environmentally friendly decorative materials for society. Will contribute to the environment. Establishing strategic partnerships with upstream and downstream partners. Enterprises work together to achieve win-win development, strengthen talent cultivation and introduction: Build a high-quality team to provide strong support for the company's development.

Improving customer service level: providing comprehensive services to customers, increasing Strong customer satisfaction and loyalty. Adapting to Industry Trends: Actively Embracing Digital. New technologies such as automation and intelligence are driving the transformation and upgrading of the company.
